#### Disclaimer

Portions of the contents of this system were developed cooperatively by the New York Department of Transportation and the Wyoming Department of Transportation Bridge Program. The New York Department of Transportation and the Wyoming Department of Transportation assume no liability or responsibility for and make no representations or warranties as to applicability or suitability of this computer system. Anyone making use thereof or relying thereon assumes all responsibility and liability arising from such use or reliance. The engineer using this software is responsible for verification of the reasonableness of the results produced by BRASS-TRUSS<sup>TM</sup>.

## **AASHTO Specification**

The Working Stress Analysis (WSD) portions of BRASS-TRUSS<sup>TM</sup> is current with the AASHTO *Specifications for Highway Bridges*, Sixteenth Edition - 1996, with Interims.

### **Additional Information and Technical Assistance**

Additional information may be obtained from:

Wyoming Department of Transportation Bridge Program 5300 Bishop Boulevard Cheyenne, WY 82009-3340 Telephone: (307) 777-4427 Fax: (307) 777-4279 Web Page: www.dot.state.wy.us/home/engineering\_technical\_programs/bridge/brass.html FTP Site: ftp://brass:*password@*wydot-filestore.dot.state.wy.us

Technical assistance may be obtained from: Telephone: (307) 777-4489 E-mail: BRASSTechSupport@wyo.gov

Purchasing, billing and licensing assistance may be obtained from:

Telephone: (307) 777-4489 E-mail: <u>BRASSBilling@wyo.gov</u>

When requesting technical assistance, please visit the incident tracking system at <u>www.wydot-brass.com</u>. Users without an account on the incident tracking system can request an account by clicking on the "Open a Technical Support Account" link/button and e-mailing the address or calling the phone number listed. A username and password will be created and sent to the user. With this system, you may upload your data file and a description of the incident, any error messages, any bridge drawings, and any hand computations, which illustrate the concern. An Incident number will be assigned to track the progress of resolving the incident.

# Installing BRASS-TRUSS<sup>™</sup>

The installation programs for all the BRASS<sup>™</sup> programs are loaded on a single DVD or may be obtained from the WYDOT FTP server. Instructions for accessing the FTP server are provided in the file **BrassDownloadInstructions.pdf**. A password is required to install this program.

Listed below are the necessary system requirements to install BRASS-TRUSS<sup>TM</sup> on your computer's hard drive.

#### **System Requirements**

Operating System	Microsoft Windows <sup>™</sup> XP (SP2 or SP3), Vista, 7, 8, 8.1, or 10.
Microprocessor	Pentium IV or higher
Microsoft .NET Framework	4.6.1
Memory	16 MB required, more is better
Hard Disk Space	Approximately 11 MB
Disk Drive	DVD drive

#### Installation

The following procedure describes how to install BRASS-TRUSS<sup>TM</sup>. This method may also be used for installation onto a network drive.

- 1. Browse to the **Truss\Exe** directory on the DVD or FTP server to locate the installation executable **BrassTruss-2.3-Install.exe**.
- 2. If using the FTP server, download the installation executable.
- 3. Run the installation file **BrassTruss-2.3-Install.exe** and follow the prompts.

BRASS-TRUSS<sup>TM</sup> requires a version of the Microsoft .NET Framework. Download and install the appropriate Microsoft .NET Framework version from <u>www.microsoft.com</u>.
