CERTIFICATE OF CALIBRATION

Date: February 19, 2003
Serial Number: 16519002
Model No: GWRD0101
Calibration Date: February 19, 2003

This certifies that the above product met or exceeded all specifications at the time of shipment. It has been calibrated in compliance with all relevant Grayson ISO9001 Quality Procedures.

Following burn-in, your instrument was tested and determined to be in specification.

At planned intervals, Grayson measurement standards are calibrated by comparison to or measurement against national standards, natural physical constants, consensus standards, or by ratio type measurements using self-calibrating techniques.

Supporting documentation relative to traceability is on file and is available for examination upon request.
