FROM: Martin McCoy, WyoLink Support Manager
RE: Motorola WyoLink Certification

A handwritten signature in black ink, appearing to be "M. McCoy", is written over the "FROM:" line of the header.

As a result of the testing completed in accordance with the Project 25 Compliance Assessment Program Baseline Common Air Interface Testing Requirements (P25-CAB-CAI_TEST_REQ), Motorola APX 6000, APX 6500, APX 7000, APX 7500, GTR 8000, XTL 1500, XTL 2500, XTL 5000, XTS 1500, XTS 2500 and XTS 5000 radios are compatible with the WyoLink system and are compliant with Project 25 Standards.

This is documented by both Summary and Detailed test reports that have been received by the WyoLink Support Office, and substantiated by the posting of these Summary Test Documents on the Responder Knowledge Base (RKB). These test reports have been reviewed and document that Motorola APX 6000, APX 6500, APX 7000, APX 7500, GTR 8000, XTL 1500, XTL 2500, XTL 5000, XTS 1500, XTS 2500 and XTS 5000 radios are compliant with Project 25 Standards.

As a result of this, the WyoLink Support Manager deems Motorola APX 6000, APX 6500, APX 7000, APX 7500, GTR 8000, XTL 1500, XTL 2500, XTL 5000, XTS 1500, XTS 2500 and XTS 5000 radios certified to be used on the WyoLink system.
