Agenda

Thursday, November 5, 2026 at 8:30 a.m.

I. CALL TO ORDER

II. PLEDGE OF ALLEGIANCE

III. ROLL CALL

IV. INTRODUCTIONS

V. CHANGES/ADDITIONS TO AGENDA (*Tab 1*)

VI. ACTION ITEMS

1. Consideration of August 5, 2026, Draft Meeting Minutes & September 2, 2026, Draft Special Meeting Minutes (*Tab 2*)
2. Consideration of WyoLink Applications (*Tab 3*)
 - A. Big Horn County Road and Bridge

VII. UPDATES/DISCUSSION

1. Director's Report – Director Westby
2. Chief Technology Officer's Report – Deputy Director Rossetti
 - A. NG911 Updates – Ms. Binning
 - i. Lumen Update
 - ii. Grant & Feasibility Study – Ms. Binning
 1. Federal Engineering Update
3. Emergency Communications Program Report – Mr. Kelly
 - A. WyoLink Operational Updates – Mr. Gardiner
 - i. WyoLink System Reports (*Tab 4*) – Mr. Gardiner
 - ii. WyoLink System Upgrades – Mr. Gardiner
 - B. Statewide Interoperability Coordination Updates – Mr. Kelly
 - i. RoIP Discussion
 - ii. Critical Connect Progress
 - C. Cybersecurity & Infrastructure Security Agency (CISA) Update – Jeremy Johnson

VIII. PUBLIC COMMENT

IX. ANNOUNCEMENTS

1. Proposed 2027 Meeting Schedule (*Tab 5*)

X. ADJOURNMENT

Mark Gordon
Governor

Wyoming Public Safety Communications Commission

5300 Bishop Boulevard, Cheyenne, Wyoming 82009-3340
Monte McClain, Chairman | Telephone: 307-777-4015

Darin J. Westby, P.E.
Director

Draft Meeting Minutes

I. Call to Order

The Public Safety Communications Commission (PSCC) met on Wednesday, August 5, 2026, via videoconference. Chairman Monte McClain presided, calling the meeting to order at 8:30 a.m.

II. Roll Call

The following members were present constituting a quorum:

Monte McClain, Chairman	Thad Hoff, Commissioner
Phillip Franklin, Vice Chairman	Rick Kaysen, Commissioner
Matt Waldock, Secretary	Aaron Kerr, Commissioner
Brian Browne, Commissioner	Chris Kocher, Commissioner
Matt Carr, Commissioner	Shane Schrader, Commissioner
Karl Germain, Commissioner	Darin Westby, WYDOT Director, Ex Officio

Commissioners Teresa HisChase and Cindi Shank were absent, but excused.

III. Introductions

The following attendees participated in the meeting:

Taylor Rossetti, Deputy Director and Interim Chief Technology Officer, WYDOT; Mark Kelly, Emergency Communications Program Manager, WYDOT; Neil Gardiner, WyoLink Support Manager, WYDOT; Aimee Binning, 911 Planning Coordinator, WYDOT; Jeff Winkelmann, Public Safety Account Director, Lumen; Jeremy Johnson, Telecommunications Specialist, Cybersecurity and Infrastructure Security Agency (CISA); MacKenzie Sewell, Assistant Attorney General, Wyoming Attorney General; and Kimberly Chapman, Commission Secretary, WYDOT.

Susan Elliott assisted with virtual meeting management.

IV. Agenda Adjustments

Ms. Chapman announced that there were no changes to the agenda.

It was moved by Commissioner Waldock, seconded by Commissioner Hoff, and unanimously carried to approve the agenda.

V. Action Items

1. Draft Meeting Minutes

It was moved by Commissioner Schrader, seconded by Commissioner Hoff, and unanimously carried to approve the April 30, 2026, business meeting minutes.

2. Consideration of WyoLink Application

It was recommended by Mr. Gardiner, moved by Commissioner Schrader, seconded by Commissioner Waldock, and unanimously carried to approve the WyoLink application from Teton County, Idaho.

VI. Updates/Discussions

1. Director's Report

Director Westby presented the Director's Report.

Legislative Updates

Director Westby and Department staff are actively preparing for and participating in legislative interim committee meetings. The director has focused heavily on the highway funding legislative working group, which has produced four to five prospective bills to improve WYDOT's funding outlook. While momentum is positive, legislative dynamics could shift following the August 18 primary election.

The next Joint Transportation, Highways, and Military Affairs Committee meeting is scheduled for Friday, August 21, 2026, in Evanston.

Operational Updates

Director Westby reported that following the start of the state's new biennium on July 1, WYDOT is finalizing its annual budget and expects to present it to the Transportation Commission for approval in September.

Director Westby continues to balance dual roles, serving concurrently as the WYDOT director and as the Wyoming Highway Patrol interim administrator. He expects to select a new Highway Patrol Colonel soon, which will lighten his workload and allow him to share insights gained during his interim leadership.

Commissioner Browne joined the meeting at 8:39 a.m.

2. Chief Technology Officer's (CTO) Report

Mr. Rossetti presented the CTO's Report.

Mr. Rossetti reported that the team is pursuing using surplus ARPA funds to replace outdated Alcatel equipment with Nokia hardware. In coordination with WYDOT's Budget Program and the State Budget Office, the team secured approval to expend the remaining funds before December 31, 2026.

Mr. Kelly and Mr. Gardiner have prioritized path analyses to identify required equipment and secure Federal Communications Commission (FCC) licensing. Installation costs have been included in the fiscal year (FY) 2027 budget, but adding the equipment into the contract will likely require a special meeting for change-order approval, which staff hope to execute before the end of the year.

NG911 Update

Mr. Binning reported that the Public Service Commission (PSC) held a hearing on outage reporting in July, but no action has been taken to date.

Vice Chair Franklin joined the meeting at 8:42 a.m.

Lumen Update

Mr. Winkelmann reported that Lumen is restructuring its product portfolio to prioritize modern digital network services. As part of this transition, Lumen will no longer proactively market or sell specific voice and legacy services to new customers, except where required by contract or regulation. Mr. Winkelmann affirmed that existing E911 services for Wyoming remain unaffected and will continue to be fully supported under current contractual and regulatory terms. Acknowledging E911 as a critical public safety function, he emphasized Lumen's commitment to maintaining operational continuity and providing direct coordination and advance notice before implementing any future service modifications.

In response to Chairman McClain's inquiry, Mr. Winkelmann clarified that the portfolio shift extends beyond traditional copper lines to a broader range of voice offerings, including VoIP, Lumen Cloud Communication, Contact Center (UC&C), Enterprise Voice (Long Distance, Toll-Free, and TDM), Wholesale Voice, and NextGen 911.

FCC Annual Report

Ms. Binning reported that the annual FCC report has been submitted. Wyoming currently has 30 Public Safety Answering Points (PSAPs), comprising 28 primary and two secondary centers. The 30 centers handled 179,165 calls and 3,278 text messages to 911, staffed statewide by 64 full-time and nine part-time employees.

Reported 911 fee expenditures reached \$15.4 million for 2025, an increase of nearly \$5 million over recent years and well above the NTIA national state average of roughly \$9 million. Ms. Binning stated that the figure reflects county treasurer line items for collected/expended fees rather than full, comprehensive operating budgets.

911 Gap Fund Grant

Seventeen entities applied for the first round of a \$3 million gap grant, which was established by last year's legislation to help PSAPs offset operating costs. A total of \$2,439,044.81 was awarded, leaving approximately \$560,000 in surplus funds.

Ms. Binning reported that a second grant application window was opened from August 1 through September 1 to distribute the remaining funds, and notifications were sent to all eligible PSAPs across the state.

Feasibility Study

Ms. Binning reported that Federal Engineering, the firm contracted to complete the feasibility study, held initial meetings with stakeholders in July to prepare them for upcoming data collection requests. An interim report outlining current E911 system conditions is due by August 1 for review by both the PSCC and the Joint Corporations Committee.

The second phase of the study will address governance, funding stability, and the rollout of Next Generation 911 (NG911), with the final comprehensive report due in

2027. Ms. Binning also reported that beginning September 3, WYDOT and Federal Engineering will host regional stakeholder meetings across all five WYDOT districts to share preliminary findings and collect input for the study's final report

3. Emergency Communications Program Manager's Report

Mr. Kelly provided an update on the Emergency Communications Program. The update also included information presented by Mr. Gardiner regarding WyoLink operations.

Mr. Kelly reported that field technicians were completing seasonal work ahead of winter. Their efforts focused on preventive maintenance inspections of radio sites and towers—utilizing both drones and traditional methods—as well as radio programming updates to enable GPS tracking across the WYDOT and WHP vehicle fleets. Following the completion of seasonal field operations, the team will assist the Enterprise Technology Services (ETS) division with installing wireless access points across WYDOT facilities—specifically targeting hard-to-reach locations requiring lift equipment to support the SmartConnect network.

Mr. Kelly commended Scott Marsh for updating the WyoLink network coverage map to include three sites currently under construction: Needles Peak, Pritchard Pass, and a site west of Glenrock. Additionally, staff is developing overlay maps detailing mobile and portable radio coverage for inclusion in an upcoming meeting packet, alongside a newly added site abbreviation index designed to cross-reference common codes with full site names.

WyoLink Operational Updates

WyoLink System Reports

Mr. Gardiner shared WyoLink usage data from the second quarter (Q2) of 2026. There was an average of about 1.48 million push-to-talks (PTT) and 124,709 minutes of airtime for the quarter. The top 20 talkgroups for Q2 were law enforcement agencies from nine counties, three municipalities, a WHP division, and a tribal agency.

While WyoLink usage appears lower year-over-year, Mr. Gardiner noted that the team is reviewing potential data anomalies linked to new connection types, such as Critical Connect, SmartConnect, and cross-state auto-roaming. An updated report will follow at the next meeting.

WyoLink System Upgrades

Mr. Gardiner reported that WyoLink successfully completed a statewide upgrade to the 2025 software release in June, with on-site assistance from Motorola technicians, marking the first statewide deployment of that software version.

Providing an update on microwave and tower projects, Mr. Gardiner reported that the initial 27-path microwave installation reached approximately 75% completion in early July. The team met with Motorola to expedite a contract change order to initiate path analyses for additional work funded by surplus grant money. In addition, all six replacement towers—constructed to address failed structural path analyses—are complete, with the final tower at Shirley Mountain finished recently. Crews are now cleared to begin installing microwave dishes.

Mr. Gardiner reported that progress was underway across several new network coverage locations: construction began at Needles Peak and Box Elder in Converse County in early August, while a construction kickoff meeting for Pritchard Pass was scheduled for mid-August. Concurrently, an RFP was approved to install new VHF antennas, migrate radio gear, dismantle decommissioned towers, and consolidate microwave equipment from standalone shelters into main radio buildings, with field execution targeted for mid-to-late August.

Field technicians resolved intermittent issues at the Kern site in Sheridan County, returning it to fully operational status. Additionally, staff replaced six HVAC units and one backup generator across network facilities to safeguard critical equipment performance during high-temperature conditions.

Mr. Gardiner reported that Managed Detection and Response (MDR) via ActiveEye remained operational, noting that brief issues encountered following a recent system upgrade have been fully resolved.

Mr. Gardiner announced that auto-roaming is operational with Nebraska, Montana, and South Dakota, and discussions continue with Idaho. Colorado has declined to participate under its current leadership.

Statewide Interoperability Coordination (SWIC) Updates

Mr. Kelly provided the SWIC update.

Mr. Kelly reported that Colorado is currently testing SmartConnect, showing some initial progress, though they remain hesitant to adopt Critical Connect due to security and system-load concerns regarding out-of-state users. He noted that Wyoming's testing has shown minimal drawbacks and clear advantages—such as Nebraska's towers successfully filling critical border coverage gaps in Goshen County. Outreach to Idaho's SWIC is temporarily delayed while the coordinator is actively deployed for wildfire response and discussions regarding Critical Connect will resume once fire season subsides.

Mr. Kelly shared that regular monthly coordination with South Dakota, Montana, and Nebraska has expanded to include participants from Kansas, Iowa, Utah, Colorado, Motorola technical staff, and CISA representatives. The forum serves as an active sounding board for technical expansion, encryption, and cross-border interoperability policies.

Tango Tango is scheduled to present during an educational session at the next in-person meeting to outline their Radio over Internet Protocol (RoIP) capabilities, providing the Commission with firsthand information to guide upcoming policy decisions. Regarding broader interoperability standards, staff has gathered sample state-to-state policies from other jurisdictions, including Atlanta, Wisconsin, and Illinois. However, following discussions with Deputy Director Rossetti, formal policy development will be deferred to allow the incoming Chief Technology Officer (CTO) to participate directly in shaping the framework.

CISA Update

Technical Assistance

Mr. Johnson reported that CISA's Emergency Communications Division (ECD) has finalized its technical assistance framework for FY 2027, which begins October 1. The new guidelines will be formally rolled out during the Regional Emergency Communications Coordination Working Group (RECCWG) meeting in Salt Lake City, after which formal technical assistance requests will be submitted.

Wyoming's Statewide Communications Interoperability Plan (SCIP)

In coordination with Mr. Kelly, Mr. Johnson has prioritized the update to Wyoming's Statewide Communications Interoperability Plan (SCIP) to keep on a three-to-five-year cycle. Acknowledging that the 2024 plan faced setbacks due to federal technical assistance gaps and DHS shutdown uncertainties, the team is scheduling resources early to guarantee federal support. In preparation for finalizing the plan during an in-person workshop at the Commission's February meeting, two collaborative planning webinars have been scheduled for January 6 from 1:00 PM to 4:00 PM, and January 20 from 9:00 AM to 12:00 PM to establish baseline priorities, milestones, and timelines.

Commercial Emergency Communications Services Update

Mr. Kelly provided an update on the pilot project with T-Mobile, reporting that field technicians successfully tested direct-to-satellite text messaging and found the technology performed very well, noting the prerequisite that a user must be entirely outside terrestrial cellular range for satellite service to engage. In a recent follow-up meeting with T-Mobile's new statewide sales representative, the company also reported successful testing of its push-to-talk (PTT) application via satellite.

Currently, about 50 compatible satellites are in orbit supporting this functionality. While intermittent coverage gaps exist today, T-Mobile and partner Starlink are actively launching additional satellites to expand coverage. Mr. Kelly emphasized that the technology offers substantial public safety advantages, pointing out that dependable satellite connectivity will be especially valuable for personnel in remote areas with no cellular infrastructure.

VII. Public Comment

There was no public comment.

VIII. Announcements

Secretary's Announcements

Ms. Chapman announced that the next meeting will be held on November 4-5, 2026, via in Casper. She will also reach out to commissioners to coordinate the special meeting scheduling once staff have the necessary information.

IX. Adjournment

Chairman McClain adjourned the August 5, 2026, business meeting at 9:15 a.m.

Mark Gordon
Governor

Wyoming Public Safety Communications Commission

Draft Meeting Minutes

I. Call to Order

The Public Safety Communications Commission (PSCC) met on Wednesday, September 2, 2026, via videoconference. Chairman Monte McClain presided, calling the meeting to order at 9:15 a.m.

II. Roll Call

The following members were present constituting a quorum:

Monte McClain, Chairman	Thad Hoff, Commissioner
Phillip Franklin, Vice Chairman	Rick Kaysen, Commissioner
Matt Waldock, Secretary	Chris Kocher, Commissioner
Brian Browne, Commissioner	Shane Schrader, Commissioner
Matt Carr, Commissioner	Cindi Shank, Commissioner
Karl Germain, Commissioner	Darin Westby, WYDOT Director, Ex Officio

Commissioners Teresa HisChase and Aaron Kerr were absent.

III. Introductions

The following attendees participated in the meeting:

Taylor Rossetti, Deputy Director and Interim Chief Technology Officer, WYDOT; MacKenzie Sewell, Assistant Attorney General, Wyoming Attorney General; and Kimberly Chapman, Commission Secretary, WYDOT.

Susan Elliott assisted with virtual meeting management.

IV. Agenda Adjustments

Ms. Chapman reported no changes to the agenda.

V. Action Items

1. Consideration of the WyoLink 27 Path Microwave Project Change Order

Mr. Kelly requested Commission approval of a \$3.2 million change order for the 27 Path Microwave Project. Surplus funds from a previous ARPA grant will be utilized to replace obsolete Alcatel equipment with current-generation, Ethernet-capable Nokia hardware. Additionally, the change order funded Motorola services for licensing and path analysis.

In response to an inquiry from Chair McClain, Mr. Kelly clarified that the project encompasses 32 additional microwave paths.

It was recommended by Mr. Kelly, moved by Commissioner Kocher, and seconded by Vice Chair Franklin to approve the Motorola change order for the 27 Path Microwave Project.+

VII. Adjournment

It was moved by Commissioner Schrader, seconded by Commissioner Waldock, and unanimously carried to adjourn the September 2, 2026, special meeting at 9:21 a.m.

**WYOLINK and WYOMING MUTUAL AID
APPLICATION FOR SYSTEM ACCESS OR NEW TALKGROUP**

Date: 09/09/2025

Requesting Agency: Big Horn County Road and Bridge

Type of Request ☒ New Talkgroup Request
 ☒ New Member
 ☐ Other _____

Type of Agency **First Responder**
 ☐ Law Enforcement
 ☐ Fire Department
 ☐ Emergency Medical Service
 ☐ Homeland Security
 ☐ Communications Center

Monte McClain, Chairman | Telephone: 307-777-4015

Darin J. Westby, P.E.
Director

Wyoming State Statute, Title 09 Article 11 Public Safety Communications Commission

9-2-1101 – Commission; created; definitions.

- (a) The public safety communications commission is created.
- (b) As used in W.S. 9-2-1101 through 9-2-1104:
 - (i) "Public safety agency" means any federal, state or political subdivision entity that provides emergency and public safety services, including state agencies employing peace officers enumerated in W.S. 6-1-104(a)(vi)(C) through (F) and approved for participation by the communications commission, fire management services, correctional services, emergency management, emergency and disaster relief services and if desired, county, municipal and federal law enforcement agencies;
 - (ii) "System" means the wireless communications network providing regional and statewide radio communications capabilities to public safety agencies.

9-2-1102 – Commission; composition; appointment of members; removal; terms; officers; vacancies; meetings.

- (a) The commission shall consist of thirteen (13) voting members to be appointed by the governor and who may be removed by the governor as provided in W.S. 9-1-202. The voting members shall be appointed from each of the following associations and agencies from their membership:
 - (i) Wyoming police chiefs association;
 - (ii) Wyoming sheriffs association;
 - (iii) Division of criminal investigation, office of the attorney general;
 - (iv) Wyoming game and fish department;
 - (v) Wyoming department of transportation;
 - (vi) Repealed by Laws 2017, ch. 17, § 2.
 - (vii) Repealed by Laws 2017, ch. 17, § 2.
 - (viii) Wyoming fire chiefs' association;
 - (ix) Repealed by Laws 2017, ch. 17, § 2.
 - (x) Repealed by Laws 2017, ch. 17, § 2.

- (xi) The public at large;
 - (xii) An ambulance and emergency medical services organization;
 - (xiii) The Wyoming association of municipalities or another municipal government association;
 - (xiv) The Wyoming county commissioners association or another county government association;
 - (xv) Repealed by Laws 2017, ch. 17, § 2.
 - (xvi) Tribal government or a tribal government association;
 - (xvii) Repealed by Laws 2017, ch. 17, § 2.
 - (xviii) A member of the Wyoming chapter of the association of public safety communications officials or the national emergency number association;
 - (xix) The Wyoming office of homeland security.
- (b) Repealed by Laws 1991, ch. 121, § 2.
- (c) The commission shall elect from its members a chairman, a vice-chairman and a secretary. Vacancies in these offices shall be filled by the commission from its membership. The commission shall meet at least once every three (3) months. Appointments by the governor shall be made within thirty (30) days of expiration of membership terms. Nominee lists shall be furnished within ten (10) days upon expiration of any membership term. Each member shall serve a three (3) year term. A vacancy on the commission shall be filled for the unexpired term by the governor.
- (d) The person appointed to the commission pursuant to paragraph (a)(v) of this section shall be the chief technology officer of the Wyoming department of transportation or another employee of the Wyoming department of transportation who oversees information technology or telecommunications systems.

9-2-1103 – Commission; compensation of members.

Members of the commission shall receive mileage and per diem provided state employees.

9-2-1104 – Commission; powers and duties; advisory capacity to promote system development; public meetings; clerical and administrative support.

- (a) The commission shall:
- (i) Work with the state budget department, the department of enterprise technology services, the department of homeland security and the department of transportation in an advisory capacity to promote the development, improvement and efficiency of public safety communications systems in the state;

- (ii) Report in writing each year to the governor and the joint transportation, highways and military affairs interim committee concerning any problems related to the installation, operation and maintenance of the system and shall make any recommendations it deems appropriate as a part of the report;
 - (iii) Submit a plan for statewide system networking to the department of enterprise technology services for inclusion in the statewide telecommunications plan developed pursuant to W.S. 9-2-2906(g);
 - (iv) In cooperation with participating federal agencies, establish and assess user fees upon any federal law enforcement agency electing to use and participate in the system;
 - (v) Promulgate necessary rules and regulations governing system operation and participation and upon failure to comply with adopted rules and regulations, may suspend system use and participation by any participating and noncomplying public safety agency or private entity;
 - (vi) Determine the participation of public safety agencies and private entities in the wireless communications network;
 - (vii) On or before May 31 of each odd numbered year, submit to the governor and the joint transportation, highways and military affairs interim committee a report covering the period beginning July 1 of the following year and ending June 30 in the fourth succeeding year detailing the expected costs of implementing the statewide system networking plan. The report shall include projections of one-time and recurring costs;
 - (viii) Recommend guidelines and standards for the development, implementation and operation of next generation 911 emergency communications systems and interoperable public safety communications and data systems in the state, including strategies for improving Wyoming's current 911 system. As part of the recommendations developed under this paragraph, the commission may identify short-term and long-term technological and policy solutions that integrate existing legacy communications infrastructure into an interoperable system and may develop and submit recommendations for legislation or other state action to further develop and support next generation 911 operations in Wyoming;
 - (ix) Promulgate necessary rules and regulations governing next generation 911 system operation and participation.
- (b) The commission may hold public meetings throughout the state and may take other appropriate measures to maintain close liaison with regional, county and municipal organizations and agencies involved in the system.
- (c) Necessary clerical and administrative support for the commission shall be furnished by the Wyoming department of transportation.

9-2-1105 – Repealed By Laws 2004, Chapter 41, § 2.

9-2-1106 – Repealed By Laws 2004, Chapter 41, § 2.
