

RELEASE NOTES

for

BRASS-SPLICE[™]

Version 5.5

November 2021

General

The BRASS[™] Incident Tracking System can be found at <https://www.wydot-brass.com>. Users without an account for the incident tracking system can request an account by clicking on the "Open a New Account" link/button and e-mailing the address or calling the phone number listed. A username and password will be created and sent to the user. All BRASS[™] technical support questions should be logged in this system.

Program Maintenance

The following issues were addressed for this release. The incident number is listed in parentheses after each issue if applicable.

Maintenance

- Updated the GUI grid control to Spread.NET Version 14. (1867)
- Updated the GUI report control to ActiveReports 15. (1896)
- Updated the analysis engine to Intel Fortran Compiler 2021. (1918)
- Corrected formatting inconsistencies in the Help system. (1991)

Bug Fixes

- Updated the GUI to process the command line arguments when it was launched from the BRASS-GIRDER[™] GUI. The contents of the Splice data transfer file (.splice.BDT) are now transferred to the BRASS-SPLICE[™] GUI input form. (1939)
- Corrected the loading of the web tensile strength in a linked Splice data transfer file (.splice.bdt). (1941)
