LEAVE INFORMATION

- ❖ **Vacation Leave:** Employees accrue leave according to the number of hours worked in the month. Employees must work 160 hours or more to earn the full leave accrual of eight (8) hours. Less than 160 worked hours results in a prorated accrual; 39 worked hours or less result in no accrual. Accrual base rate and annual carryover balance is determined by completed continuous years of service. *TP01's accrue leave time beginning the 6th continuous month of employment. Employees must work 160 hours or more to earn the full leave accrual of eight (8) hours. Less than 160 worked hours results in a prorated accrual; 39 worked hours or less result in no accrual. - ❖ **Paid Holidays:** The State of Wyoming observes nine (9) legal holidays each year plus any days designated by the Governor. Employees are eligible for a maximum of eight (8) hours of paid holiday leave. WYOMING RETIREMENT SYSTEM (WRS) BENEFITS

- ❖ **Retirement Program – Public Employee Pension Plan**

- Employer Contribution: 9.12%
- Employee Contribution: 9.00%

The WRS Public Employee Plan currently requires contributions of 18.12% of an employee's salary. Employees contribute 9.00% and the employer contributes 9.12%; however, the State funds some of the required employee's portion of the contribution. This means employees contribute 3.43% of their monthly salary; the State funds the remaining 14.69%. The employee contribution is pre-tax resulting in less taxable income.

One (1) month of service is calculated based on the number of hours worked in a month. If an employee works 86 or more hours, the credit is one (1) full month of service; 40 to 85 hours is credited at one half (1/2) month of service; and one (1) to 39 hours is credited at one quarter (1/4) month of service.

Employees become eligible for a lifetime monthly retirement benefit upon vesting (after 48 months) and meeting the age and service requirements. (Vesting represents the length of service required before a member is entitled to a monthly benefit.) The final retirement benefit is based upon years of service, salary during employment, and age at retirement. Employees are eligible for full retirement benefits at age 65 with four (4) years of service or the Rule of 85 (age + years of service=85).

TP01's working longer than six months are eligible for retirement and will begin contributions the first month. AWEC's may enroll but are not eligible for the employer contribution.

All employees enrolled in retirement will receive an email at their personal email address advising them to log in to the WRS portal and designate beneficiaries. If employees are unable to access the portal, contact HR for a WRS beneficiary form. Please note: If married, the spouse must be the primary beneficiary. **WRS: 777-7691, <http://retirement.state.wy.us>**

- ❖ **457 Deferred Compensation Plan Auto Enrollment:** New state employees will be enrolled automatically in the WRS 457 Deferred Compensation Plan at 3% pre-tax pay unless, within 30 days of receiving the Automatic Enrollment Notice, the employee:
 - Actively enrolls by making his/her own elections in the 457 Plan, or
 - Opts out of participation.
- Employees receive a notification letter with all related information about auto-enrollment. This letter will be sent between 4-6 weeks after an employee's information has been entered into the payroll system by HR. Employees have 30 calendar days from the date of this letter to opt out of the 457 Plan and have no contributions taken at all. If an employee wants to start contributions sooner than the opt-out period would allow, he/she can elect into the 457 Plan online: <https://retirement.state.wy.us/DC/State-457-Plan-Auto-Enrollment>
- **For employees who do not want to participate,** log in to wrsdcp.com with the assigned PIN from the letter to opt out of the Plan, or opt-out by calling the recorded phone line at **800-701-8255**. There will be no “opt out” paper form.
- **For employees who do not opt-out and continue with auto enrollment,** the first contribution going to the 457 Plan will be taken out of the first paycheck after the expiration of the 30-day opt-out period. The established defaults for automatic enrollment are provided in State law and the 457 Plan Document as follows:
 - contributions are taken from pre-tax dollars
 - contributions are invested in the Stable Value Fund during the 90 day permissible withdrawal period and then moved to the age-appropriate Target Date Fund based on an anticipated retirement age of 65
 - Default contribution rate of the greater of \$20 or 3% of pre-tax gross pay
- **For employees who overlooked opting out** during the 30 day period, there is a provision known as a permissible withdrawal available for a short time. During the 90 calendar days after automatic contributions are first taken from an employee's pay, the employee may request a permissible withdrawal by contacting WRS at 457pln@wyo.gov. It can take up to 30 days for the employee to receive the money and it will be reported as taxable income on a 1099-R form to the IRS.

WYDOT will contribute \$20 per month for employees who invest in the plan. There is an option for post-tax contributions. No federal income taxes are paid on deferred income until the investment is returned either upon retirement, termination, or an unforeseeable emergency withdrawal. Several investment options are available to employees under this plan.

TP01's may participate in deferred compensation. AWEC's are not eligible to enroll in deferred compensation.
